

# PREGNANT?

## PROTECT YOUR BABY!

**Syphilis**, **HIV** and other **STD** infections during pregnancy can result in significant health problems for an infant.

**SEE A DOCTOR FOR  
PRENATAL CARE!**

Up to **40%** of pregnancies in women with untreated **syphilis** may result in **miscarriage**, **stillbirth** or **infant death**.

For more information, contact your local Florida Department of Health STD Program at

Or contact the Florida Department of Health, STD and Viral Hepatitis Section by email at [STD.feedback@flhealth.gov](mailto:STD.feedback@flhealth.gov)
